ANNIVERSARY OF THE CHURCH EXTENSION SOCIETY OF THE METHODIST EPISCOPAL CHURCH. Last evening the Umon Methodist Episcopal Church, Fourth street, below Arch, was fitted with an audience of ladies and gentlemen, assembled for the purpose of participating in the second anniversary of the Church Exten-sion Society of the Methodist Episcopal Church, Rev. Thomas T. Tasker, President of the Society. in the chair. The exercises were opened with singing. Rev. D. Starks then led in prayer. The report of the Treasurer, J. T. Balance on hand,

The report of the Corresponding Secretary, Rev. O. J. Kennatt, sets forth that the past year has been one of sorrow and embarrassment to the society. The executive officer, Rev. Dr. Monroe, fell at his post. Financial difficulties followed. The demands for aid were exceedingly large, reaching in the aggregate nearly half a million of dollars, while the Society has been able to disburse less than \$30 000. With that sum they have extended aid to sixty-five churches in different States and Territories. The work of the Society is enlarging, and is of vital importance to the Church and to the coun-

Bishop Janes then made an address. He referred to the organization of the Church Extension Society in this city in 1864, the objects of which were for the purpose of providing com-fortable churches throughout the country for those of the Methodist denomination. It afforded him great pleasure to look at the work that had been accomplished since that time.

Rev. B. F. Crary, of Arkansas, followed in an interesting address, in which he gave a detailed account of the progress of Methodism in the section that he represented.

Rev. Mr. Eddy, of Chicago, made the concluding address, urging the necessity of raising funds to further the objects of the Society.

An election of Managers for the ensuing year followed, when the benediction was pronounced by Bishop Janes.

THE CIGAR MANUFACTURERS' UNION .- The cigar manufacturers of this city met yesterday atternoon, at 5 o'clock, at the N. E. corner of Cherry and Fourth streets, to take action in regard to their interests in reference to the late strike of the cigar makers. The attendance was fair. Mr. Lewis Gumpert presided. The unant mous expressions of the manufacturers were that they did not feel able to pay the prices demanded; that they could not submit to dictation from any union; that a united effort and union on their part would break up the 'Clear-makers' Union; that they would not submit to a price-list founded upon the size of the cigar, since two cigars of the same measure may be differently made—one fine and the other soft or not so fine—thence by paying the same amount for a good eight as for one decidedly interior; that the major ty of workmen are not in union with this

The following presmble and resolutions were put and adopted:— Whereas, it is the opinion of the manufactu-rers of the city of Philadelphia that the majority of the hands have not been heard. Resolved, That we will sustain the masses

late dictatorial action of the Cigar-makers' Union, but that a few in the great body had con-

certed the movement: that each manufacturing catablishment should have its own list of prices

against the parliamentary rule adopted in their prices; that we sympathize with them, and do declare that we will sustain them in their action to work for us at the old prices. Resorted, That we will not employ workmen who are bound to, and cannot vary from, the

price-list of the Cigarmakers' Union.

BROAD STREET .- A communication to the Mayor from Mr. Knesss, Chief Engineer and Mayor from Mr. Kneass, Chief Engineer and Surveyor, contains the following facts in reference to Broad street. Mr. Kneass says:— "Broad street, as laid out upon the plans of the city, its length, and also its width between curbs, has a width of 113 feet between the houses, and a length of 11 98-100 miles from the river at League Island to the city line. From League Island to Program Length of Program Leng League Island to Poplar street, a distance of five and three-quarter miles, and also from Norris street to the city line a distance of 5 36-106 miles, the wiath between curbs is 77 feet, while between Poplar and Norris streets, a length of of a mile, the width between curbs is 57 feet-hus making a total of over eleven miles in ength, with a width of 77 feet for carriage way, and only & of a mile 57 feet. Only 94 miles of this street is now open and in use."

The Chief also states that the distance from League Island to the river Delaware, upon the ine of Broad street, extended northward, from the best information we have, would be about 35 miles, striking the river at or near New Hope. A bill to create a commission for opening Broad street, from the city line to the river, north-ward, as a State road, has already been before the Legislature.

THE MERCANTILE LIBRARY.-Last evening, a meeting of citizens was held at the Board of Trade Rooms, for the purpose of devising mea-sures to assist the Directors of the Mercantile Library in their efforts to secure a fund for the improvement of the property on Tenth street, near Chesnut. Mayor McMichael presided. Mr. Perot, President of the Library, stated the progress made by the Directors in their efforts to coure the money needed to place the new building in a condition for the proper arrangement of the books, \$100,000 will be needed by the Board; but \$50,000 now will enable them to make the alterations and additions, and then leave the Library in debt \$50,000. In the course of a discussion by those present, it was agreed to secure, it possible, the \$100,000, so as to keep the Library clear of debt. Several gentlemen present subscribed \$1000 each towards the fund. and a committee of thirteen, to be appointed by the Mayor, was agreed upon. The Committee will act in conjunction with the Directors.
